All three Branches are unanimous in their opinion that the Glossary is a very helpful, specialized tool which can be put to immediate and continuing use. The Map Library could use a total 25X6A of 11 copies. The map catalogers checked the glossary against by official several maps published sources and found that nearly every word in the legends was included in the Glessary. They feel that the Glessary would be a very valuable supplement to the standard dictionaries and glossaries already (over) FOLD HERE TO RETURN TO SENDER DATE FROM: NAME, ADDRESS AND P

in use in the Processing Branch and would like three copies.

The Reference Branch indicated that it could use seven copies. Two copies would be used within the Branch for research on maps, books, and place name locations. The Reference Branch finds that the Glessary is much more inclusive in its compilation of geographic and cartographic terms, especially the specialized terms, than collections of general terms (like dictionaries) which it already has and that therefore the Glossary will be both much more valuable and convenient. The Branch would like to have four copies available for loan purposes to other components (namely, D/GG, D/GC, DD/P, the Department of State, etc.); and one copy for the Depository.
